

Project Sheet: Winged Earrings

Supplies

- 10 Bi-cones 4mm Swarovski {Body of Dragon Fly}
- 1 pack "Tierra Cast" Dragon Fly Wings (silver or gold)
- 1 pack "Tierra Cast" 4mm Beaded Bead Caps (silver or gold) {Neck and tip of Tail}

Basic Supplies

- Round Nose Pliers
- Chain Nose Pliers
- Bent Nose Pliers
- Side Cutters

Instructions

1. Using a head pin, load one Beaded Bead Cap (cone up to cradle first crystal), four 4mm crystals, one Dragon Fly Wing Bead, another Beaded Bead Cap (cone up), and one more 4mm crystal.
2. Gently bend the body of the head pin to the side; this gives your bug a life like motion when worn. Turn a wrapped eye loop at the top of the last crystal (See our "Jewelry Making" project sheet for more info on turning an eye loop, and a wrapped eye loop), then gently open the loop on your fish hook to the side, pop on your dragon fly dangle, gently close the fish hook to finish.
3. Repeat steps 1 and 2 to complete second earring.
